

## **“PKM electronic GmbH” has changed its name to “STC Germany GmbH”**

For more than 40 years, we are a leading EMC, Radio and electrical safety testing laboratory located closed to Munich, and since 2011 a member of the STC group. Located in the heart of Europe, the laboratory became STC’s first establishment in the EU and the only European CB Testing Laboratory approved by the National Certification Body CQC (China Quality Certification Centre). As a EU Notified Body for RED (Radio-Equipment-Directive) we can provide also certification services for companies targeting the vast European Market.

To establish a sole global corporate identity for the STC group, we are delighted to announce that “PKM electronic GmbH” has changed its name to “STC Germany GmbH”. STC Germany GmbH is devoted to serving you, an important global partner, by providing reliable, professional and comprehensive Testing, Inspection and Certification services to fulfill your every need.

Please be informed that email address has also been changed. Updated information is as follows:
